

**LOYAL equipments limited**

## COMPANY PROFILE

**Loyal equipments limited** is ISO certified, ASME "U" & "U2" Stamp holder, one of the known reputed company in India for design, manufacturing, supply and erection/commissioning of process equipments like Pressure vessels, Air cooled heat exchanger, Shell & tube heat exchanger, Storage tanks, Pressure receivers, Chimney, Heavy structural items, Skids, Base plates and other items for Oil/Gas, petroleum, chemical, sugar, steel, fertilizers and power plant sector.

Loyal Equipment is an ISO 9001-2008 certified company and follow Quality Management Systems for the entire business process right from the beginning to manufacturing/fabrication and installation at the site.

Loyal Equipment is having continuously long experience with EIL, GSPC, GAIL, ONGC, Ingersoll Rand, Linde, Dresser Rand, L&T, Reliance, ALSTOM, Kirlosker, Texas Southpiller-USA and others govt. & pvt. organization.

Loyal Equipment has worked under inspection of various third party agencies like EIL, Lloyds, HSB, BV, SGS, TUV, Clough-Australia, Jacob H&G etc. We are getting orders repetitively from our existing and new client that shows our quality and reliability of supplied product.

## HISTORY

Loyal equipments limited was established in 1993 as a company "Loyal Engineer" in the city of Ahmadabad in the Western Indian State of Gujarat with set up of manufacturing of kind of fabrication Items. After successful year of "Loyal Engineer" It was incorporated as "Loyal Equipment Private Limited" in the year of 2007 with facilities of design and manufacturing of process equipments. And Now It is incorporated as "Loyal Equipment Limited" BSE registered company in 2015 with new goals & achievements.

## GLOBAL PERFORMANCE

## DESIGN & ENGINEERING

**Loyal Equipment** is having in house facility of design & engineering with international design codes, standards, software's, tools and competent experience team of engineers. Thermal sizing / process design of heat exchangers, pressure vessels is carried out by world renowned software HTRI and Mechanical design by American Society of Mechanical Engineers ASME Section Div-1 & 2, TEMA, API, PV elite Software, drafting by engineering tools AutoCAD, under guidance of well experience man power of engineering & design. Loyal Equipment holds ASME "U", U2" NB and IBR Stamp certification.

## QUALITY ASSURANCE

"Quality" at Loyal Equipment has been the reason of continuous growth hence It is core strength of company. Loyal Equipment is accredited by ISO 9001-2008 and this is directly under the supervision of top management. Loyal Equipment follow Quality Management Systems for the entire business process right from the beginning to manufacturing/fabrication and installation at the site. Loyal Equipment limited has supplied numbers of Pressure vessels, Heat Exchanger, compressor & Auxiliaries Skid packaging in last 20 years of span and getting repetitively orders from our client that show itself our quality ,reliability & performance of product.

Loyal Equipment is equipped with in house NDT facilities like Dye Penetrate (DP) test, Hydro testing, Pneumatic testing, PMI (positive material identification) testing and outsources Radiography (X-ray), Ultrasonic (UT). Loyal Equipment is having experienced & qualified skilled man power capable in quality welding with various metallurgy like carbon steel, stainless steel, duplex etc.

## MANUFACTURING

Loyal Equipment is having kind of latest machineries, tools, skilled man power, handling equipment and various in house facilities for smooth operation and quality product. We have developed a sound infrastructure base that is subject to regular upgradation based on technology and working systems. Our company having 28500 sq. meters of land, In which infrastructure is setup over 3526 sq. meters with well-furnished office spread over an area of 136 sq. meters.

Loyal equipment has 6 well-facilitated workshops structured with different capacity of EOT crane, high-tech modern machines and having dedicated areas for Cutting, Welding, Rolling, SS fabrication, Finning, Equipment assembly, Shot blasting, Painting etc. Further, Company has an open space available that can be utilized either for material yard and if required for the fabrication of steel structure.

We are assisted by a team of experienced and skilled professionals who are committed to meet the varied demands of clients without compromising on the quality quotient. Our team of professionals possesses sound understanding about the processes of design, manufacturing and fabrication.

Loyal equipment having well experienced professional engineers team for the field of marketing, proposal, design & engineering, Fabrication, quality & technology, inspection, erection & commissioning.

Welding technologist and skilled worker experienced with various WPS and materials like mild steel, carbon Steel, Stainless Steel, etc.
